Thursday March 18, 2010!

Presenting Hollister Research and Development Team

“LEARN ABOUT INNOVATIONS IN OSTOMY EQUIPMENT”!

(IT DOES NOT MATTER THAT YOU USE ANOTHER TYPE OF PRODUCT)

FROM THE PROGRAM KIOSK - ROBERT WYCHERS

Have you ever wondered what really happens behind those silent secret science laboratory doors? What are those scientists up to now, I wonder ?? Horror movies have served up many creatures that thrill our imagination. We have all seen Frankenstein, Dracula, Dr. Jekyll and Mr. Hyde, zombies, werewolves, and a legion of other terrifying monsters.

But all this is the stuff of fiction.

What I am pleased to announce is that two presenters for our March 18 meeting (Greg and Kevin) will give us a view of exciting ostomy supplies that are now being developed by the Hollister Research and Development team in the United States.

These two gentlemen certainly have interesting backgrounds ! This coupled with their fascinating information, will create an extremely interesting presentation !! So Be **SURE** to mark this date on your calendar and plan to attend. Until then, take care and I'll see you soon.

*The Halton-Peel Chapter
Of
The United Ostomy Association of Canada
Celebrating 25 years as a Volunteer based Organization*

You are invited to share in our celebrations

*Oakville Golf Club
